SCSK Initiates Operations in Germany to Expand Business in Europe

SCSK Corporation (Head Office: Koto-ku, Tokyo; Representative Director, President: Takaaki Touma, hereinafter SCSK), along with SCSK Europe Ltd. (Head Office: London; Managing Director: Toshihiro Shibazaki, hereinafter SCSK EU), has announced the establishment of a branch in Düsseldorf, Germany. As of September 2024, the branch aims to expand IT services and explore new business opportunities in Europe.

SCSK Europe Ltd. Germany Branch (Overview)

In addition to providing a range of IT services within Japan, SCSK has established a robust international network to support customers' global expansion, focusing on six key locations such as the United States, United Kingdom, China, Singapore, Indonesia, and Myanmar.

On this occasion, London based SCSK EU, has advanced its presence, and built a business foundation in Europe to enhance the quality of services offered within the EU and allowing new business development opportunities, through co-creation with business partners.

The reasons for selecting Germany as the European base are as follows:

- Germany is Europe's largest economy and hosts the most Japanese companies in the region.
- By leveraging the customer base of the Sumitomo Corporation Group and our business partners, we anticipate significant opportunities for business expansion.
- Well-developed infrastructure for transportation and logistics, which facilitates easy access to major European cities.

Therefore, we aim to accelerate the expansion of global IT service offerings across Europe.

Representative's Comment (Toshihiro Shibazaki, Managing Director, SCSK Europe Ltd.):

In the Germany branch, we will leverage the expertise accumulated by SCSK EU in the UK, focusing on SCSK {digital}.

We aim to steadily build up on our track record with Japanese manufacturing companies and other new market clients.

We are committed to establishing and strengthening our brand image from SCSK in the UK to SCSK in the EMEA region (Europe, Middle East, and Africa).
